All In One **KIOSK:** Overview

All In One Kiosk is an intelligent interactive customer service kiosk designed to enhance the way businesses interact and communicate with their customers.

Call for help, price check, product browse, store map and loyalty services are provided by this feature rich wall kiosk that supports several highly sophisticated hardware peripherals.

Telephone handset, integrated barcode scanner, speaker phone and camera with Wi-Fi bolt on allow staff to communicate with their customers remotely or from any location within their environment.

Optimise business processes further by combining the kiosk hardware with Analytics software that turns the Wall Touch PC into a tool for measuring, monitoring and managing customer and employee behaviour through real time analytics.

Description

• 15" portrait oriented LCD screen

• 5-wire resistive touch screen

• Stylish housing with white matt plastic bezel

Features

• Space saving - The portrait view combined with wall mount installation minimises the use of valuable in store space. Uses 75 / 100mm VESA standard versatile installation.

• Voice Communications - Initiate full two way voice calls and connect kiosk users with an in store or remote member of staff at the touch of the screen.

• Flexible, Modular Design - Customise and fulfil individual needs by adding additional peripherals, including telephone handset and interchangeable personalised fascias.

• A Complete Solution - An end to end customer service interaction suite, combining touch sensitive hardware devices, unique software applications and powerful analytics to provide consumer intelligence.

Certificates

All In One KIOSK : Specification

- **Display:** 15" portrait oriented LCD screen
- **Screen resolution:** 768x1024 pixels
- **Touch Screen Technology:**
  5-wire resistive touch screen
- **System SBC:**
  K150 - Intel Atom Z510 1.0Ghz Single core
  K250 - Intel Atom D525 1.8Ghz Dual Core
  K350 - Atom N2600/N2800 1.6/1.86Ghz Dual Core
- **System Memory:** DDR2 1/2Gb,DDR3 1/2/4Gb
- **System Sotrage:** 4/8/16/32Gb CF,DOM,SSD
- **Mounting:** 75 and 100mm VESA wall mount
- **External ports:** 1 x USB,1 x DC-in,1x RJ-45
- **Peripherals:**
  Intergrated Microphone and speaker incorporating
  USB sound card for full-duplex speakerphone
  Capability
- **Options:**
  2D/3D Laser line barcode scanner
  Telephone handset (IP Telephony enabled)
  Magnetic Stripe Card reader
  RFID 125Khz / 33.56Mhz card reader
  2 Mpixels camera and LED light
  802.11 b/g/n Wi-Fi plug-in
  All internal components upgradeable on request
- **Operation System:**
  Microsoft Window Embedded,Window 7,Window 8
  Linux are supported
- **Warranty:** 1 year
